

Health & Safety Notes.

About your safety

If you are happy to take part in this study, your involvement will require you to experience different types of immersive content on a HTC Vive headset to observe how you interact with the equipment and content.

For some people, using this equipment is not recommended. If you think you may be uncomfortable wearing the VR apparatus please let us know and we can provide additional support.

If any of the statements on this poster apply to you we would have to ask you not to participate in this study.

Please do not participate if:

- You are under 14 years old.
- You have ever had a seizure.
- You have an epileptic condition.
- You experience any psychiatric conditions.
- You have a heart condition.
- You have a pre-existing binocular vision condition.
- You have ever experienced loss of awareness.
- You have a serious medical condition.
- You have a pacemaker or other implanted medical device.
- You experience dizziness and/or sickness.
- You have a cold/flu at the moment.
- You has a stress or an anxiety related condition.
- You are or may be, pregnant.
