

**NOTICE OF DETERMINATION OF APPLICATIONS FOR CONSENT FOR
DISCHARGES OF STORM SEWAGE AND SEWAGE IN AN EMERGENCY**

ENVIRONMENT AGENCY

WATER RESOURCES ACT 1991

(AS AMENDED BY THE ENVIRONMENT ACT 1995)

TO: Severn Trent Water Ltd ("Consent Holder")
c/o Manager of Quality and Environment
2297 Coventry Road
Sheldon
Birmingham
B26 3PU

WHEREAS Severn Trent Water Limited applied for, or is deemed by virtue of Paragraph 25(2) (a) of Schedule 26 to the Water Act 1989 to have applied for, consents to discharge storm sewage and sewage in an emergency as listed in the attached Schedule 2 to this Notice;

AND WHEREAS the Secretary of State directed the National Rivers Authority to grant temporary consents for the discharges applied for until it had determined the applications;

AND WHEREAS at the date of this Notice none of the discharges on the attached Schedule 2 to this Notice has been identified as being unsatisfactory as defined in Government Guidance to accompany Urban Waste Water Treatment Regulations (England and Wales) 1994:

NOW THEREFORE NOTICE IS GIVEN to Severn Trent Water Limited that in accordance with its duty to determine applications for consents under paragraph 3 of Schedule 10 to the Water Resources Act 1991 (as amended) the Environment Agency hereby determines the applications for the discharges listed in the attached Schedule 2 and grants consent for the discharges, subject to the conditions in the attached Schedule 1.

Subject to the provisions of paragraphs 7 and 8 of Schedule 10 of the Water Resources Act 1991 (as amended), no notice shall be served by the Environment Agency altering the effect of this notice without the agreement of the Consent Holder during a period of 4 years from the date this Notice is issued.

This Notice is served and takes effect on the 14th day of April 2009

Signed

A handwritten signature of Christopher Hall.

National Permitting Team Leader

Schedule 1

Condition 1

Nature of Discharge from Combined Sewer Overflow or Storm Tank

1.1

A discharge from a Combined Sewer Overflow ('CSO') or a sewage works storm tank shall consist solely of storm sewage effluent resulting from rainfall runoff or snowmelt into the sewerage system.

Condition 2

Restrictions on Discharges from Combined Sewer Overflow or Storm Tank

2.1

The discharge from a Combined Sewer Overflow ('CSO') or a sewage works storm tank shall not:

- (i) cause significant visual or aesthetic impact due to solids or fungus;
- (ii) cause or make a significant contribution to a deterioration in river chemical or biological class or cause other adverse environmental impact;
- (iii) cause or make a significant contribution to a failure to comply with Bathing Water Quality Standards for identified bathing waters;
- (iv) operate in dry weather conditions; or
- (v) cause a breach of water quality standards (EQS) and/or other EC Directives' requirements.

Condition 3

Maintenance of Combined Sewer Overflow or Storm Tank

3.1

The overflow, and any screening system, of a Combined Sewer Overflow ('CSO') or a sewage works storm tank shall be maintained in an effective and efficient operational condition.

3.2 Where an alarm or telemetry system has been provided it shall be maintained in working order to provide warning of screen failure or operation of the Combined Sewer Overflow (CSO) or sewage works storm tank

3.3 Where equipment for the separation of solids to the standards set out in the Government Guidance Note of July 1997 on Implementation of the Urban Waste Water Treatment (England and Wales) Regulations 1994 is not provided and the Discharge from a Combined Sewer Overflow (CSO) or a sewage works storm tank results in unsatisfactory solid matter being visible in the receiving waters or on the banks of the receiving waters, beach, or shoreline, in the vicinity of the outfall, the Consent Holder shall take all reasonable steps to collect and remove such matter as soon as reasonably practicable after the discharge has been reported

Condition 4 **Discharges from Emergency Overflows**

4.1 Nature

(a) The Discharge from a Pumping Station Emergency Overflow ('PSEO') shall only occur in an emergency when the sewage pumping station is inoperative as a result of one or more of the following:

- (i) electrical power failure or electronic control failure not due to the act or default of the Consent Holder, its agents, representatives, officers, employees or servants;
- (ii) mechanical breakdown of duty and standby pumps;
- (iii) rising main failure;
- (iv) blockage of the downstream sewer not due to the act or default of the Consent Holder, its agents, representatives, officers, employees or servants;

and it is not reasonably practicable to dispose of the sewage otherwise.

(b) There shall be no undue delay on the part of the Consent Holder in remedying any such failure or breakdown as set out in 4.1(a) above, and any storage provided for use in an emergency shall be fully utilised before a discharge occurs.

4.2. Telemetry

A 24 hour response telemetry alarm system shall be provided and maintained to give notification of failure or breakdown of the pumping station.

4.3. Standby

Where a standby pump or a standby generator is provided it shall be maintained in working order.

4.4. Pumping Station failure rectification

Where a pumping station emergency overflow takes place, the Consent Holder shall notify the Environment Agency forthwith, or if that is not possible as soon as reasonably practicable, and any failure of the pumping station shall be rectified as soon as reasonably practicable.

4.5 Clean up

Where equipment for the separation of solids to the standards set out in the Government Guidance Note of July 1997 on Implementation of the Urban Waste Water Treatment (England and Wales) Regulations 1994 is not provided, and the discharge from a Pumping Station Emergency Overflow results in unsatisfactory solid matter being visible in the receiving waters or on the banks of the receiving waters, beach, or shoreline, in the vicinity of the outfall, the Consent Holder shall take all reasonable steps to collect and remove such matter as soon as reasonably practicable after the discharge has been reported.
