#### A. CONTRIBUTORS AND CONTENT

Things are not well on the planet of Sarn. Civil unrest linked to the fact the planet is on the verge of being destroyed by volcanic activity does not help the mood of the people. Timanov, the High Priest, is attempting to maintain order by encouraging the populace to put their faith in Logar, the god of the Fire Mountain. Malkon, the young leader of the Sarns is totally confused by what is happening. His confidence isn't helped by Amyand, Roskal and Sorasta who are attempting to prove that Logar doesn't exist.

#### A. CONTRIBUTORS AND CONTENT

As the Doctor struggles to resist the Master, more revelations are revealed by Turlough. Sarn is a prison planet used by the Trions and Malkon is his brother. The identical scarring on their arms prove they have both been branded political prisoners from Trion.

At last the Master has gained access to the gases he requires, but the Doctor manages to intervene. Instead of receiving the correct amount, he is subjected to a massive dose, grows to several times his normal size and appears to be destroyed.

Meanwhile, Turlough has summoned a Trion ship to take the Sarns off their decaying planet. He also decides to return home.

Peri asks the Doctor if she can join him in his travels. This he agrees to and they set off in search of their next adventure ...
