

### DIY, the challenge: video C

Nathalie: "So Eric do you want to play a game with me?"

Eric: "No problem!"

Nathalie" "Yeah! Ok you've spoken to us about how you're going to redo the barn. In fifteen seconds, tell me about the colour of the walls, the colour of the floor and a piece of decor that you would like in the barn, you! We will ask Gilles the same thing!"

Eric: " The colour of the barn's walls in fifteen seconds, er...concrete and bright red."

Nathalie: "OK, Gilles!"

Gilles: "So the walls? The colour of the walls? Something more rustic so you can see the stonework, perhaps with pointing, but I do see a surface that is a little rustic, sand coloured...there you go!"

Eric: "The floor in something like claret tones, although a little lighter."

Gilles: "Ok the floor... me, I really see terracotta, in terracotta tiles, that's it."

Eric: And something to put in the barn? A beautiful lamp... a big beautiful lamp right in the middle of the barn."

Gilles: "Ah! Decor? There similarly I'd keep it quite [rustic]...beams, stonework visible, maybe... you'd have to work on the light I think.

Locate little points of light, something that makes it appealing in terms of light because it is a little dark in there."

Eric: "Did I win?"

Nathalie: "We have to compare it with what Eric said."

Gilles: "Come on!"

Nathalie: "Not bad."

Eric: "Yes, not bad. We'll be able to carry on working together!"

Gilles: "Come on!"
