

Shopping, the challenge: video C

Nat: "Ariane and Michel, would you like to play a little game with me?"

Ariane & Michel: "But of course... go ahead!"

Nat: "Take a look, it's a receipt... A friend has done some shopping at a supermarket. You have to guess how much he spent."

Ariane: "Oh my goodness... All right let's do it!"

Michel: "Reblochon cheese... Reblochon cheese if it is farmhouse one, is around 2 euros fifty."

Ariane: "Onions, they're not much... Go on thirty centimes, they barely count. Agatha potatoes..."

Michel: "Agatha Potatoes two and a half kilos..."

Ariane: "One fifty per kilo."

Michel: "Yes three euros in total... So we're at 27... 30 euros. I'll go for 30..."

Ariane: "And the cream! How much are you saying?"

Michel: "Yes I saw that... I say thirty two euros fifty."

Ariane: "Me, I would say 30 euros... Let's do a round number, 30 euros!"

Nat: "So thirty euros. Look! There's a little grey post-it note... A grey post-it note, lift it up and have a look."

Ariane: "Wow! Not bad... Thirty one euros eighteen..."

Michel: "Thirty one euros eighteen!"

Nat: "Fantastic, you are very good!"
