<p><b>Learning hints</b></p> <p>Numbers are something which can be practised when you're out and about on your own because they're all around. Just get into the habit of saying in Italian all the numbers you see: bus numbers, car number plates, adverts, prices, telephone numbers ...</p> <p>If you find you still need practice and have time at home, cut up a piece of card to make ten small tiles. Write the digits 0-9 on them and drop them into an envelope. Without looking, take one out and say the number. When you're happy that you know the low numbers, take two tiles out and say both two-digit numbers, i.e. 3 and 5 give 35 and 53.</p>
